DETAILED ACTION

Continued Examination under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission of IDS filed on 01/25 and 01/14/2010 has been entered.

Information Disclosure Statement

The information disclosure statements (IDS) submitted on 01/25 and 01/14/2010 comply with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements are being considered by the examiner.

Allowable Subject Matter

Claims 16 – 40 and 42 stand allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In re Claim 16, Abbott, US 2004/0183166 discloses all limitation of claim 16 except for "...etching into the surface of the interlayer using the etchant to form a matrix of islands of remaining material of substantially uniform height with voids extending between these islands."

The claimed method differs from prior art methods on this point and there is no evidence it would have been obvious to make this change.

Art Unit: 2893

In re Claim 23, Abbott discloses all limitations of claim 23 except for “...to form a matrix of islands of remaining material of substantially uniform height with voids extending between these islands...” The claimed method differs from prior art methods on this point and there is no evidence it would have been obvious to make this change.

In re Claim 29, Abbott and Ganesan, US 5,554,569 discloses all limitations of claim 29 except for “...a semiconductor device comprising ... the interlayer having a surface comprising a matrix of islands of remaining material of substantially uniform height with voids extending between these islands.” The claimed device differs from prior art devices on this point and there is no evidence it would have been obvious to make this change.

In re Claim 35, Abbott and Ganesan disclose all limitations of claim 35 except for “...a metallic single-piece base body of a leadframe, and at least one interlayer which has been applied to the base body and may comprise one or more individual layers, and the interlayer having a surface comprising a matrix of islands of remaining material of substantially uniform height with voids extending between these islands.” The claimed device differs from prior art devices on this point and there is no evidence it would have been obvious to make this change.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Comment on Applicant's 371P

Applicant submitted on 04/13/2006 the International Search Report stating that Kazumi, EP 0 533 137 anticipates claims 1 – 15 of PCT/DE/2004/002199 original Application. However,

Art Unit: 2893

claims 1 -15 are cancelled in this Application. In any case, Kazumi does not anticipate the amended (on 09/02/2009) claims 16, 23, 29, and 35, specifically the new limitation such as “...a matrix of islands of remaining material of substantially uniform height with voids extending between these islands...”
